## Back this statement

This union branch / organisation / campaign group

**Notes** the size, breadth and unity of the 20 October demonstrations – 200,000 marched in London, 15,000 in Glasgow and 10,000 in Belfast.

**Welcomes** the decision of the TUC Congress to support a motion in favour of a general strike against austerity.

**Welcomes** the calls made on the 20 October march by union general secretaries – Len McCluskey (Unite), Mark Serwotka (PCS) and Bob Crow (RMT) – for a general strike.

**Calls** on the TUC to name the day for a general strike against austerity as soon as practically possible.

**Believes** we can build the momentum of resistance through solidarity with any group of workers taking strike action and by building protests on key dates such as 14 November (the European TUC day of action) and 5 December – the date of chancellor George Osborne's 'autumn statement'.

**Believes** we need to unite all those resisting the cuts – trade unions, unemployed people, students and campaigning groups.

**Resolves** to support the Unite the Resistance conference on Saturday 17 November and donate £\_\_\_\_\_ towards the cost of organising the event.
